

LEGISLATIVE OUTLOOK

DECEMBER

Engaging our local elected officials in a conversation about business priorities in the upcoming legislative session.

EXPERIENCE

A united business community starts with you. Policy and budget decisions at the state and local level can directly impact your ability to conduct business in our community. Be a part of this moderated discussion as the legislators forecast the upcoming legislative session.

Along with community partners, Columbia River Economic Development Council (CREDC) and Identity Clark County (ICC), the Chamber will present the Shared Business Priorities for 2024 with attendees and legislators. These directly impact the work and advocacy the Chamber will be doing on your behalf in the coming year, and your sponsorship of this event showcases your commitment to moving business forward in Southwest Washington. The event will host an opportunity for all attendees to network before and after the program.

AUDIENCE

This event draws over 300 of the area's top professionals, local and state elected officials and from across all industry sectors to hear reactions to the business priorities and to get answers regarding the issues that matter most today.

ALL SPONSORSHIPS INCLUDE:

A unique opportunity to meet with local legislators and top professionals in our area.
